

DESIGNED FOR EVERY STAGE

The PRSU Portable Flat Panel Stand was designed for every stage of use from storage to transport to set up to teardown. No tools are needed, and most people can set it up in under two minutes, even the first time.

The rugged design can withstand the wear and tear that is commonplace in the rental and staging market. The PRSU also breaks down and folds up for easy space savings and can be stored in a customized, wheeled case accessory.

FEATURES

- Fast set up and tear down
- Intuitive, tool-less installation
- Rugged design withstands heavy use
- Folds up for easy transport and storage
- Integrated cable management
- Available accessories
