16:9 WIDE · HAS · Low Blue Light · Flicker-free · DP · Windows 8 Compatible

BenQ

Because it matters

BenQ LED Monitor BL2205PT

A Win-Win Decision for Mutual Benefits

Designed for business environments, the BenQ BL Series of professional monitors is an essential part of your solutions to minimize total cost of ownership and maximize staff productivity – a win-win decision for the benefits of all.

Flicker-Free Backlight

The flicker-free technology replaces conventional LED backlight to effectively eliminate flickering at all brightness levels, reducing eye fatigue caused by flickering backlight.

Low Blue Light Mode

Every Monitor produces a strain of blue spectrum light that is one of the critical causes of eye damage, eye strain, headaches and sleeping disorders. BenQ's unique Low Blue Light technology is designed to deal with the everyday problem of blue light exposure and allows a healthier time spent in front of your computer. Switch to one of the four preset Low Blue Light Modes from OSD hot key (Multimedia – 30% reduction, Web-surfing – 50% reduction, Office – 60% reduction, Reading – 70% reduction), and reward your eyes without having to lose the visual enjoyment.

Height Adjustment Stand (HAS)

The HAS allows you to find the best viewing angles for personal work or screen sharing with an extensive range of monitor adjustments – height, tilt, pivot, stroke and swivel.

Win 8 compatible

The BL2205PT have passed Windows 8 certification and is fully compatible with Windows 8 color systems. Plug in the BL2205PT to your computer, and Windows 8 will recognize it instantly, making setup and connection effortless.
