

AXIS Companion Eye L Indoor full HD IR network camera

AXIS Companion Eye L is a fixed mini dome with a compact, flat-faced design that suppresses reflections. Utilizing WDR technology and IR illumination, the camera provides HDTV surveillance even in challenging light conditions or total darkness. The camera features PoE that allows one cable to provide both network connectivity and electrical power. With its built-in microSD card slot for edge storage the camera offers a convenient recording solution and the support for Axis' Zipstream technology ensures maximized recording time.

AXIS Companion Eye L is supported only by AXIS Companion video management software and mobile app.

- > HDTV 1080p video quality and 2 MP resolution
- > WDR to handle scenes with complex light conditions
- > Built-in IR illumination for surveillance in total darkness
- > PoE for network connectivity and electrical power
- > Supports microSD card and Axis' Zipstream technology
