CITRIX®
READY

Colorful and Interactive

The STU-530 Signature Pad features a 5-inch high-quality, high-resolution color LCD screen - providing ample space for signatures, affirmation text and p omotional messages.

- 5-inch, high-resolution color LCD with 800 x 480 resolution for maximum impact when collecting signatures or displaying advertising, promotions or branding.
- Native support for new versions of Citrix (v7.8 and newer)
- State-of-the-art RSA/AES encryption to perform secure transactions
- Patented, cordless battery-free pen with 1024 levels of pressure
- Pen holder/USB cable lock combination provides a convenient area to place the pen, plus USB lock prevents accidental disconnection of USB cable.

The large, vibrant screen of the STU-530 makes it ideal for businesses wanting to utilize the signature pad for advertising, promotions or branding. It offers a very comfortable signing experience with an improved, thin design and a low-profile, flat surface. The STU-530 is natively supported by newer versions of Citrix using standard USB connectivity. The STU-530 can be implemented anywhere that you are looking to implement secure, reliable signature capture as part of your paperless workflow.

Signature Accuracy	Global Leader	Security	Lower Cost of Ownership
The pad's high sensor resolution and pen technology captures each signer's unique signature profile.	Wacom is the trusted leader around the world in providing best-in-class signature capture solutions.	Enabled with state-of-the art encryption. Designed with a unique hardware ID that can be embedded in each signature.	A durable signing surface and Wacom's patented battery-free pen technology contributes to a lower total cost of ownership.
